Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 210, Nos. 1 & 2, July 2000

M. Saito, Y. Wada, K. Ikeda, Z-J. Wang, H.E. Foster Jr., S.D. Smith, R.M. Weiss and J. Latifpour: Expression of endothelin receptor subtypes and their messenger RNAs in diabetic rat prostate: Effect of insulin treatment 1–12

E.N. Kaytor, J. Qian, H.C. Towle and L.K. Olson: An indirect role for upstream stimulatory factor in glucose-mediated induction of pyruvate kinase and S_{14} gene expression 13–21

S. Genet, R.K. Kale and N.Z. Baquer: Effects of free radicals on cytosolic creatine kinase activities and protection by antioxidant enzymes and sulfhydryl compounds 23–28

S. Zarina, H-R. Zhao and E.C. Abraham: Advanced glycation end products in human senile and diabetic cataractous lenses 29–34

W.D. Ehringer, W. Niu, B. Chiang, O-L. Wang, L. Gordon and S. Chien: Membrane permeability of fructose-1,6-diphosphate in lipid vesicles and endothelial cells 35–45

J. Marin-Garcia, R. Ananthakrishnan and M.J. Goldenthal: Heart mitochondrial DNA and enzyme changes during early human development 47–52

L.P. Turcotte, J.R. Swenberger, M.Z. Tucker, A.J. Yee, G. Trump, J.J.F.P. Luiken and A. Bonen: Muscle palmitate uptake and binding are saturable and inhibited by antibodies to $FABP_{PM}$ 53–63

R. Milczarek, J. Klimek and L. Żelewski: The effects of ascorbate and α-tocopherol on the NADPH-dependent lipid peroxidation in human placental mitochondria 65–73

N. Tribulova, T. Ravingerova, L. Okruhlicova, I. Gabauer, M. Fickova, D. Pancza, J. Slezak and M. Manoach: Modulation of cAMP level by tedisamil in guinea pig heart 75–80

X-X. Han, P.K. Fernando and A. Bonen: Denervation provokes greater reductions in insulin-stimulated glucose transport in muscle than severe diabetes 81–89

A.L. Okorokova Façanha, M.C. dos Reis and M. Montero-Lomelí: Structural study of the porcine Na^+/H^+ exchanger NHE1 gene and its 5′-flanking region 91–99

M. Stula, H-D. Orzechowski, S. Gschwend, R. Vetter, R. von Harsdorf, R. Dietz and M. Paul: Influence of sustained mechanical stress on Egr-1 mRNA expression in cultured human endothelial cells 101–108

S. Aggarwal, C.D. Tandon, M. Forouzandeh, S.K. Singla, R. Kiran and R.K. Jethi: Role of biomolecules from human renal stone matrix on COM crystal growth 109–119

M. Castillo, F. Amalik, A. Linares and E. García-Peregrín: Fish oil reduces cholesterol and arachidonic acid levels in plasma and lipoproteins from hypercholesterolemic chicks 121–130

M. Gunther, M. Laithier and O. Brison: A set of proteins interacting with transcription factor Sp1 identified in a two-hybrid screening 131–142

T. Ravingerova, R. Stetka, K. Volkovova, D. Pancza, A. Dzurba, A. Ziegelhöffer and J. Styk: Acute diabetes modulates response to ischemia in isolated rat heart 143–151

M.C. Jordani, A.C. Santos, I.M.R. Prado, S.A. Uyemura and C. Curti: Flufenamic acid as an inducer of mitochondrial permeability transition 153–158

Z. Daneshrad, M.P. Garcia-Riera, M. Verdys and A. Rossi: Differential responses to chronic hypoxia and dietary restriction of aerobic capacity and enzyme levels in the rat myocardium 159–166

A. Bakkali Nadi, E. Olivares and W.J. Malaisse: D-glucose metabolism in normal dispersed islet cells and tumoral INS-1 cells 167–172

M.M. Souza, S. Gross, R.T. Boyle and M. Lieberman: Na^+/K^+-ATPase inhibition during cardiac myocyte swelling: Involvement of intracellular pH and Ca^{2+} 173–183

Index to Volume 210 185–187

Instructions to Authors 189–193
